

# *Help U Order*

*Bring your business closer to your customers and your customers closer to you*

- **Less lost orders due to busy phone lines or having to put customers on hold**
- **Less time on the phone means more productivity**
- **Reduce order errors from miscommunications between staff and customers**

HelpUOrder is a new service that offers you an online ordering system. We can provide your customers with an easy online form to order directly from you. And we can do this for much less than it would cost to have your own web site and pay to have your own created.

We take your customers orders and fax or e-mail them right to you, it's that simple. We offer reasonable rates and an easy way to get you online. The internet is the largest form of communication. Isn't it time you jumped on the bandwagon too?

**Packages now starting as low as 15 cents an order.**

Thousands of customers, able to reach you and order at a touch of a button or the click of a mouse.
